

Appendix 4

Supplemental Declaration of Jennifer Keough,
JND Legal Administration, LLC

In re: Equifax Inc. Customer Data Security Breach Litigation,
No. 17-md-2800-TWT (N.D. Ga.)

Plaintiffs' Motion for Final Approval of Settlement

IN THE UNITED STATES DISTRICT COURT
FOR THE NORTHERN DISTRICT OF GEORGIA
ATLANTA DIVISION

IN RE: EQUIFAX INC. CUSTOMER
DATA SECURITY BREACH
LITIGATION

Case No. 1:17-md-2800-TWT

CONSUMER ACTIONS

**DECLARATION OF
JENNIFER M. KEOUGH
REGARDING IMPLEMENTATION
OF SETTLEMENT
ADMINISTRATION PROGRAM**

I, JENNIFER M. KEOUGH, declare as follows:

I. INTRODUCTION

1. I am the Chief Executive Officer (“CEO”) of JND Legal Administration LLC (“JND”). The Court appointed JND as the Settlement Administrator¹ in its Order Directing Notice, dated July 22, 2019 (“Order”), to perform the duties set forth in the Settlement Agreement and Release (“Settlement Agreement”) in the above-captioned action (the “Action”). This Declaration is based on my personal knowledge, as well as upon information provided to me by experienced JND employees and counsel for the Plaintiffs and Defendants

¹ Capitalized terms used and not otherwise defined herein shall have the meanings given such terms in the Settlement Agreement and Release.

(“Counsel”) in the Action, and if called upon to do so, I could and would testify competently thereto.

2. I have more than 20 years of legal experience creating and supervising claims administration programs and have personally overseen well over 500 matters. Some of the larger matters I have handled in my career include the administration of the \$20 billion Gulf Coast Claims Facility, the \$10 billion Deepwater Horizon BP Settlement, and the \$3.4 billion Cobell Indian Trust, which was the largest government class action in U.S history.

3. JND is a leading legal administration services provider with headquarters located in Seattle, Washington, and other offices throughout the Country. JND has extensive experience with all aspects of legal administration and has administered hundreds of class action settlements. As the CEO, I am involved in all facets of JND’s operations, including but not limited to, overseeing and monitoring our settlement administration programs. I previously filed a declaration with the Court entitled, Declaration of Jennifer M. Keough Regarding Proposed Administration Program, dated July 21, 2019, Docket No. 739-6 (“First JMK Declaration”), in which I described my experience and that of JND in much greater detail, as well as the proposed settlement administration program here. I respectfully submit this Declaration to report on the actual implementation of the administration program through December 1, 2019.

4. In the First JMK Declaration, I outlined the responsibilities of the Settlement Administrator as they were detailed in the Settlement Agreement. In summary, JND was tasked with the following:

- Planning, designing, implementing, testing, deploying and maintaining a secure case-specific website in English and Spanish with online filing capabilities and the ability to check claim status;
- Establishing and maintaining a toll-free telephone number staffed with over 100 skilled customer service representatives and a 24/7 Interactive Voice Recording (“IVR”) system;
- Developing call scripts and claims protocols to provide support for Settlement Class Members;
- Establishing and maintaining a post office box to communicate with Settlement Class Members via written correspondence;
- Providing direct email notice to Settlement Class Members;
- Printing and mailing Settlement related documentation to Settlement Class Members;
- Responding to Settlement Class Members’ inquiries via U.S. mail, electronic mail and telephone;
- Reviewing, processing and determining the validity of claims submitted by Settlement Class Members;
- Reviewing necessary documentation to determine compliance with different claim category requirements;
- Developing protocols for deficiencies and working with Settlement Class Members to cure deficiencies;
- Reviewing and processing exclusion requests;
- Reviewing and processing objections to the Settlement;
- Preparing and providing customized reports to Counsel;

- Participating in weekly/biweekly regulator stakeholder calls;
- Administering and overseeing the distribution of the Consumer Restitution Fund;
- Calculating, processing and transmitting individual distribution benefits to Settlement Class Members;
- Researching and reissuing undelivered distributions;
- Designing and establishing a secure case-specific database to house and track all noticing efforts, telephone calls, email communications, claims materials, deficiencies, outreach, and distribution payments;
- Building secure mechanisms for data transfers;
- Preparing and disseminating weekly reports to Counsel;
- Performing supplemental functions and tasks requested by Counsel on an as-needed basis; and
- Working and coordinating with various third parties, including the Notice Provider, TransUnion and Experian to ensure a smooth administration of the Settlement.

5. In actuality, the breadth of the administration program in this Action to date has been unlike any other matter in the history of class action administration. As discussed in further detail below, as of the date of this Declaration, JND has received over 15 million claims from Settlement Class Members representing over 10% of the class² and over 130 million visits to the Settlement Website. We are not aware of another class action settlement receiving such a large number of claims or

² JND is currently in the process of reviewing and evaluating all claims submitted in the Action in accordance with the Settlement Agreement and Claims Administration Protocol.

traffic to a settlement website. The efforts and tasks required by JND to handle the massive volume of claims received, as well as correspondence, and accompanying interest in the Settlement, are discussed in detail below.

II. PREPARATION FOR LAUNCH OF ADMINISTRATION PROGRAM

6. Based on the high-profile nature of the Action, the Parties and JND expected significant interest from Settlement Class Members once the preliminary approval motion and accompanying papers were filed on July 22, 2019. As a result, my team and I began working very closely with the Parties and Counsel following JND's retention in late May 2019 to ensure, among other things, that JND was ready to go live in the event the Court preliminarily approved the Settlement on July 22, 2019 ("Preliminary Approval Date").

A. Development of Scripts and Protocols

7. After reviewing and providing feedback on relevant Settlement related material, including but not limited to the notice forms, claim form and claims administration protocol, JND began developing comprehensive email, call center and IVR scripts to provide support to Settlement Class Members when they reached out to JND regarding the Settlement. The scripts were designed to answer frequently-asked-questions by Settlement Class Members. Additionally, JND began developing its internal claims processing protocols, which were designed specifically to address matters related to the Settlement.

8. To ensure our staff received proper and thorough training on the scripts and applicable protocols, JND finalized the documentation, in consultation with Counsel, in early July 2019, which allowed us to train our staff throughout the majority of July in advance of the Preliminary Approval Date.

B. Call Center Preparation

9. JND takes a data-driven approach to call center capacity planning based on forecasted and historical call volume, project characteristics, and notice medium for each project. In this Action, in order to accommodate the massive forecasted call volume, JND worked closely with its call center technology and telephony services provider to thoroughly define the project scope and required technology changes to support a project of this magnitude. JND and its service provider determined that, due to the size of the Settlement Class, it would be prudent to implement a dedicated call handling infrastructure to insulate against any possible disruption. This isolated environment was built upon the existing known, tried and true technology used daily by JND for all projects where call handling and quality are of paramount importance and was designed to handle in excess of 5,000 concurrent calls with the ability to expand that capacity on demand.

10. Thereafter, in concert with its service provider, JND conducted in-depth load testing through a combination of automated and manual methods. The load testing was completed in mid-July to ensure the launch was successful.

11. Additionally, a business continuity plan specific to the Settlement was devised to ensure that additional telephony resources could be added in real time if demand necessitated, and custom dashboards and automated reporting tools were created to ensure the JND executive and management teams were apprised of call activity in real-time. Further, robust workforce intelligence tools were developed and deployed to immediately alert call center management of any anomalies and automatically deploy “fixes” if and when needed.

C. Staff Training

12. JND provided classroom training to over 150 contact center agents, project managers, and other staff members. Employees were trained on JND’s policies, processes, and procedures, related to its systems, customer service, and project information specific to the Settlement. The training was delivered in phases and culminated with written tests at the conclusion of each phase. Staff members were required to pass each written test with a minimum of 90% prior to moving into the next phase of training.

13. Following classroom training, call center representatives underwent live training, utilizing practice calls that put agents in both routine and difficult real-world scenarios developed by contact center management and JND executives. The same training was conducted for agents responding to emails utilizing “mock”

responses. Training scenarios and questions came directly from phone and email scripts developed specifically for the Settlement.

14. Additionally, contact center management conducted “spot checks” of live training calls and were able to immediately provide feedback to agents.

D. Development of the Settlement Website

15. In addition to our employees being adequately equipped and prepared, it was vital that the Settlement Website be ready to go live if the Court preliminarily approved the Settlement on the Preliminary Approval Date, and that it be able to withstand the amount of expected traffic and do so in a secure manner. As discussed in further detail below, the Settlement Website had a number of interactive features, including online claim filing capabilities, and as such, was designed to ensure the protection of its confidentiality, integrity and availability.

16. The Settlement Website utilized a secure cloud platform to allow for the greatest scalability, reliability and resiliency. To achieve this, the Settlement Website was programmed to deploy to multiple geographic areas and configured to direct each user to the nearest geographic location hosting the Settlement Website. Deploying to multiple areas guarantees that there would be no single point of failure and provides the highest level of availability and performance. Should any region reach a utilization above a predetermined threshold, new users accessing the Settlement Website would be automatically routed to other regions. Additionally,

should any region experience a service affecting event, or undergo maintenance, traffic would be routed automatically to other regions.

17. Prior to launching, the Settlement Website was also load tested under a variety of simulations to determine, among other things, the site's performance when hundreds of thousands of users accessed it concurrently. The load testing was performed by simulating simultaneous users in specific regions and by distributing a much larger load across multiple geographic regions. The load tests were run using multiple tools to ensure the accuracy of results and increase carrier, route and region diversity. We worked with JND's secure cloud provider and our load testing software service providers to design scenarios that accurately simulated a percentage of total users against an equivalent percentage of the total pre-defined available server resources. From these tests, JND extrapolated the projected concurrent user load capacity. By way of example, from load testing 100,000 simulated concurrent users for an extended time on a 1% of the resources, we were able to project that 10 million concurrent users could be supported before additional resources were needed. JND executed these load tests and refined the application and resource allocation dozens of times in advance of the launch of the Settlement Website to ensure its stability, scalability and robustness.

18. In addition to performing development in accordance with industry standard secure coding practices, JND retained a reputable, independent, third party

to conduct penetration testing of the Settlement Website. JND maintains multiple environments, including development, test, and production to support segregation of duties, principle of least privilege, and a formal development lifecycle. Prior to the launch of the Settlement Website, penetration testing was performed on a version of the Settlement Website hosted in the test environment, using a variety of automated tools in combination with manual testing in which certified penetration testers attempted to infiltrate or compromise the site. At the completion of testing, JND received the results and an opportunity to implement corrective actions, should any have been needed, before a second, and final, testing period took place.

19. Only upon the successful completion of testing was the Settlement Website deployed to its production environment. Penetration testing, performed in the same manner, was also subsequently conducted for any modifications to the Settlement Website's code or functionality, and done so in the test environment, prior to deployment of said modification(s) to the production environment.

20. JND also periodically performed penetration testing of the live production site. All testing of the live production site was performed safely to protect the confidentiality and availability of the Settlement Website, and its data, and JND remained in contact with the testers throughout the testing period. JND will continue to perform periodical testing, which adheres to this rigorous process.

E. Creation of Settlement-Specific Database

21. JND created a settlement specific, secure claims processing database to maintain, organize and track all aspects of claim intake, processing and management in the administration of the Settlement. The database readily stores all data related to the Settlement, including claim images, supporting documentation, call notes, claimant correspondence, deficiencies, outreach and payments. It was customized to capture all claim data, enable accurate and timely reporting, claims analysis and claims determinations. JND configured the database to ensure it was scalable to meet the forecasted volume of claims, correspondence and communication, and ensured the processes were thoroughly tested and any potential issues were remediated in advance of the Preliminary Approval Date.

III. LAUNCH OF THE ADMINISTRATION PROGRAM

22. On July 22, 2019, the Court preliminarily approved the Settlement and, among other things, appointed JND as the Settlement Administrator in the Action. JND immediately undertook the administration tasks required to implement the Settlement in accordance with the Settlement Agreement and the Order.

A. Settlement Website

23. In accordance with the Settlement Agreement, upon Counsel's filing of the Motion for Preliminary Approval, JND launched a static version of the Settlement Website, www.EquifaxBreachSettlement.com, which consisted of a

“landing page” indicating that the Settlement Website will be updated upon entry of the Order. One day later, on July 23, 2019, JND updated the Settlement Website to include information and material about the Settlement, including a Home Page, and separate pages for Key Dates, FAQs and Important Documents, including the Court-ordered Settlement Notice. The Key Dates page informed Settlement Class Members of key dates and deadlines relative to the Settlement. The FAQs page provided concise answers to frequently asked questions in a searchable and organized manner. And, the Important Documents page contained downloadable Settlement related documents, including the Court-ordered Settlement Notice.

24. The following day, on July 24, 2019, JND added a number of interactive features to the Settlement Website in accordance with the Settlement and based upon requests from state and government regulators by agreement of Counsel, which permitted Settlement Class Members to submit claims electronically, check the status of their claims, upload documents to support their claims, and contact JND via a secure contact form. The Settlement Website, which is available in English and Spanish, was designed to be informational and interactive, and was formatted for ease of navigation. It provides, among other things, detailed information about Settlement Class Members’ legal rights and options under the Settlement, and it describes the information and documentation that consumers were required to

submit in connection with their claims, including instructions for providing such information and documentation.

25. Additionally, the Settlement Website is ADA compliant and is optimized for mobile visitors so that information loaded quickly on mobile devices and is also designed to maximize search engine optimization through Google and other search engines. Keywords and natural language search terms were included in the Settlement Website's metadata to maximize search engine rankings in order to best assist Settlement Class Members seeking information about the Settlement.

26. Visitors to the Settlement Website have and will continue to have until the end of the Extended Claims Period, the ability to download the Settlement Notice, Claim Form, Minor Claim Form, Consolidated Consumer Class Action Complaint, and all relevant court documents. All the documents available for download from the Settlement Website (save for some briefs filed by Counsel) have been translated into the following languages: Spanish, French, Arabic, Korean, Chinese, Tagalog and Vietnamese.

27. A key interactive feature of the Settlement Website is a tool developed by Equifax known as the "Look Up Tool." The tool permits individuals to find out whether their information was impacted by the Data Breach so they can determine whether or not they are Settlement Class Members.

28. JND built a front-end application as part of the Settlement Website for the “Look Up Tool.” The front-end application allows users enter to their last name and a partial SSN into the Settlement Website, and once submitted, the Settlement Website communicates to an application program interface (API) built and hosted by Equifax, securely passing the user’s last name and partial SSN to the Equifax API. The Equifax API then returns an indicator to JND informing whether the person was impacted by the Data Breach.

29. JND worked closely with IT personnel at Equifax and Counsel for the Parties to integrate this functionality with the API, which included manual testing and high-volume load testing. JND additionally coordinated with Equifax IT personnel when running high volumes of simulated user simultaneously against this portion of the Settlement Website to determine user thresholds of both the front end and API.

30. As mentioned above, JND periodically conducts penetration testing of the Settlement Website. Additionally, JND performs, no less than monthly, security scans using various web application scanning tools. The results are reviewed by Information Technology and Information Security staff, who, if necessary, will develop and schedule a plan of action.

31. For extra protection and to minimize the potential spoofing and creation of fraudulent websites, JND and Class Counsel purchased over 100 domain names

similar to www.EquifaxBreachSettlement.com. All of the purchased domain names are redirected to the official Settlement Website. Additionally, JND on a regular basis, searches for domains potentially related to the Settlement Website by using unique search terms and we receive daily reports of suspicious domain names, which are immediately reviewed. After each initial review, each site is added to a watchlist, which as of the date of this Declaration, contains over 1,000 domains. Additionally, JND reviews the sites on the watchlist, at least weekly, for indicators of fraud, suspected phishing or malicious material.

32. As discussed above, the scale of Settlement Class Member and media interest in this Action, has generated an unprecedented response to the Settlement Website. As of December 1, 2019, there have been a total of 130,566,316 visits to the Settlement Website. Of the total visits to the Settlement Website, there have been a total number of 39,551,961 unique visits to the Settlement Website. As noted, the Settlement Website's traffic was extraordinary. JND tracked the Settlement Website's activity on a daily basis and provided daily Settlement Website statistics to Counsel reporting on the following: Total Visits, Total Unique Visits, Average Session Visit, Users by Device Category, Users by Country, Users by Pages, and Top 20 Sources.

33. JND has periodically updated the Settlement Website since the Court granted preliminary approval on July 22, 2019 to keep Settlement Class Members

apprised of developments, and deadlines as they pass, and will continue to do so, at Counsel's request, throughout the Settlement administration process.

B. Settlement Email Address

34. On the Preliminary Approval Date, JND launched a dedicated email address, info@EquifaxBreachSettlement.com ("Settlement Email Address"), that permits Settlement Class Members and other individuals to submit email inquiries related to the Settlement. JND's trained call center agents are responsible for monitoring and responding to emails sent to the Settlement Email Address. The FAQs used by telephone agents to assist in responding to phone inquiries, are similarly employed by JND's email agents to respond to emails submitted by Settlement Class Members.

35. The settlement mailbox associated with the Settlement Email Address is managed and maintained by JND and is hosted in a secure cloud and on-premise infrastructure. Data is encrypted at rest and any data transmitted to the Settlement Email Address from the Settlement Website is encrypted in-transit. Additionally, the mailbox is configured to employ encryption in-transit, whenever supported by a claimant's email solution, for communications directly between a potential or known claimant's mailbox and the settlement mailbox.

36. As of December 1, 2019, JND has received a total of 276,155 emails to the Settlement Email Address and via the Settlement Website's secure contact form.

Emails are reviewed, categorized and subsequently responded to with the appropriate information in accordance with approved protocols. As of December 1, 2019, JND is current with respect to all email inquiries. JND will continue to maintain the Settlement Email Address and respond to Settlement Class Members' inquiries throughout the Settlement administration process.

C. Toll-Free Telephone Number

37. As of the Preliminary Approval Date, JND went live with a 24-hour, seven days a week, toll-free telephone line with IVR, 1-833-759-2982, for Settlement Class Members to inquire about the Settlement and to obtain information related to the Settlement. The toll-free telephone number has been operational since that day and, as discussed above, is staffed with live operators who were professionally trained in how to answer questions specifically related to the Settlement, as well as in class action administration matters in general.

38. Since establishing the toll-free telephone line, JND has monitored call activity on a daily basis and has made regular decisions, in consultation with Counsel, regarding its call center staffing levels depending on call volume. JND's staffing includes project leads, supervisors and quality assurance personnel. Additionally, we have regularly updated our call center scripts based on feedback received from Settlement Class Members. For example, in certain instances, we have added questions to the scripts, and in other instances, we have clarified

information to make sure the claimant population understands the nuances of the administration of the Settlement.

39. Call center agents have studied all of the Settlement documents and have access to them at all times during telephone calls as a key reference resource. In addition, a team of call center agents has access to claim records so they can speak knowledgeably to Settlement Class Members who call in and have specific questions about their claims. As needed, complex and detailed inquiries regarding the Settlement, the administration process, a claim or a situation are escalated to appropriate JND personnel for handling.

40. During regular business hours (10:00 am – 6:30 pm EST), Monday through Friday, the toll-free telephone line is answered by trained call center agents. The call center is staffed so that eighty percent of calls are answered in twenty seconds or less. After regular business hours, callers can listen to pre-recorded informational messages specific to the Settlement via the IVR. Callers are encouraged to visit the Settlement Website for additional information and, as mentioned above, are able to securely contact the Settlement Administrator, if needed. The call center was initially staffed with 150 call center agents plus support staff, including supervisors and quality assurance personnel, immediately following the launch of the administration program. With a focus on financial stewardship of the Settlement, JND closely monitors call volume relative to staffing levels and

makes reductions in headcount in line with reductions in call volume. The call center headcount was reduced to 100 on or about August 27, 2019 and then reduced to 80 on September 17, 2019. The call center is currently staffed with 65 call center agents in support of the Settlement.

41. As of December 1, 2019, the toll-free line has received a total of 375,246 calls and JND call center agents have fielded a total of 147,646 calls from Settlement Class Members or other individuals. JND will continue to maintain the toll-free IVR number and assist Settlement Class Members throughout the Settlement administration process.

IV. INITIAL CLAIMS RESPONSE

42. Once the Settlement Website went live with the interactive features on July 24, 2019, individuals began filing claims almost immediately. Within twenty-four (24) hours, JND had received over 380,000 on-line claims and within forty-eight (48) hours, JND received over 2.4 million on-line claims.³ Additionally, the Settlement Website received over 22 million visits within the first twenty-four (24) hours and over 46 million visits within the first forty-eight (48) hours. This unprecedented website traffic was the result of the widespread news stories

³ Claims could be submitted by anyone, and as such, these figures do not represent how many claims were submitted by Settlement Class Members. JND has subsequently validated the number of Settlement Class Members who have made claims and is continuing to evaluate the validity of all submitted claims.

regarding the Settlement that had been picked up by the media before the Court-approved Notice Plan began. The Settlement was featured prominently in places like the CNN, New York Times, and on the Today Show, among other national media outlets. During this initial response, JND monitored the performance of the Settlement Website in real time to ensure there were no issues with respect to its integrity and availability. The Settlement Website suffered no outages during this initial onslaught of traffic nor at any time since the Preliminary Approval Date.

V. DISSEMINATION OF DIRECT NOTICE VIA EMAIL

43. JND was charged with reaching out to the Settlement Class directly to ensure that all consumers who had been actually affected by the Data Breach, according to Equifax's records, had an opportunity to learn more about and participate in the Settlement. Pursuant to the Court approved Notice Plan, JND was to send an initial email notice to those Settlement Class Members for whom an email address could be identified 60 days following the entry of the Court Order approving Notice, two additional supplemental emails during the Initial Claims Period to Settlement Class Members who had not yet opted out, filed a claim or unsubscribed from a previous email, and a third supplemental email at or about the beginning of the Extended Claims Period.

44. As discussed below and in compliance with the Court-approved Notice Plan, JND has implemented the initial email notice campaign, as well as the first supplemental email notice campaign.

45. On July 27, 2019, JND received, via secure file transfer protocol (“SFTP”), 42 electronic files from Equifax containing the names, last known mailing addresses, date of birth and last known email addresses, if available, of Settlement Class Members at the time of the Equifax Data Breach (“Source Data”). The Source Data contained 231,673,150 records, of which 147,424,404 had unique Equifax identification numbers representing the 147,424,404 unique Settlement Class Members. Some portion of the Settlement Class had multiple records, which caused the delta between the 231,673,150 records and the 147,424,404 unique Settlement Class Members.

46. The Source Data contained email addresses for only 20,916,994 Settlement Class Members. Therefore, in order to maximize the efficacy of the email notice, and as contemplated by the Notice Plan, JND conducted a sophisticated email append process working with TransUnion, a market leader in identifying email addresses for specific users, to cross reference the information provided by Equifax in an effort to find the best current email address for Settlement Class Members, as well as two additional viable email addresses, if possible. JND provided to TransUnion the 231,673,150 records representing the 147,424,404 Settlement Class

Members via SFTP. TransUnion utilized the data provided by JND to identify a best single matching record in their data for each unique Settlement Class Member and returned to JND resulting email address(es), if found, along with a unique TransUnion identifier for the Settlement Class Member.

47. In advance of initiating each email campaign, JND performed several tasks to ensure the highest possible deliverability rate so that more potential Settlement Class Members would receive notice of the Settlement. For example, JND, in collaboration with the Notice Provider, evaluated the emails for potential spam language to improve deliverability. This process included running the proposed email content through spam evaluation and testing software, and Domain Keys (DKIM) were implemented to allow for best evaluation, identification, and authorization of email servers. Additionally, my team checked the emailing domain against the 25 most common email blacklists to ensure there were no existing barriers prior to delivery.

48. For each email campaign, JND utilized a verification program to validate the quality of the email addresses, and to eliminate invalid emails and spam traps that would otherwise negatively impact deliverability. Thereafter, JND scrubbed the list of email address for incomplete addresses to further identify all invalid email addresses. The email content was then formatted and structured in a way that receiving servers expected to receive emails, allowing for the emails to be

transmitted easily to the recipients. In the event that a primary email address was flagged as invalid during the validation process, JND utilized secondary or tertiary valid email addresses provided by TransUnion or Equifax, where available.

49. To ensure readability of the email notices, my team worked with the Notice Provider to review and format the content into a structure that was applicable to all email platforms. Before initiating email notice, we worked with our contacts at the largest Email Service Providers (“ESPs”) to ensure that the emails were “whitelisted.” We then sent test emails to multiple ESPs and opened the emails on a number of different devices, including desktop computers, iPhones, Android phones, and tablets, to ensure the email was delivered and opened as expected.

50. JND included an “unsubscribe” link at the bottom of the email notices to allow Settlement Class Members to opt-out of any additional email notices from JND, which was essential to maintaining JNDs reputation among the ESPs and reducing potential complaints relating to the email campaigns.

51. Additionally, JND included a disclaimer at the bottom of the email notices informing Settlement Class Members that participation in the Settlement would not require the provision of any personally identifiable information such as a social security number, bank account information, credit card information, or driver license number. The disclaimer went on to inform Settlement Class Members that if they received an email that they suspected to be fraudulent, they should forward it

immediately to abuse@EquifaxBreachSettlement.com (“Abuse Email Address”). JND created the Abuse Email Address to receive emails from Settlement Class Members in the event they suspected fraud. Our trained email agents are responsible for monitoring and responding to emails sent to the Abuse Email Address. Emails deemed to be suspicious, or potentially fraudulent, were and continue to be escalated to JND’s Information Security and Information Technology departments for investigation and determination.

52. Once JND completed all of the above-mentioned email validation and fraud detection measures, we identified 104,815,404 Settlement Class Members who had a valid email address and 42,609,000 Settlement Class Members who had either an invalid or no email address.

53. Pursuant to the Court approved Notice Plan, on August 7, 2019, JND began disseminating on a rolling basis, via email, the initial Court approved version of the Notice to those Settlement Class Members for whom an email address was identified (“Initial Email Notice”). JND completed sending the Initial Email Notices on September 19, 2019. A representative copy of the Initial Email Notice is attached hereto as Exhibit A.

54. In total, JND sent Initial Email Notices to 104,815,404 million Settlement Class Members. Emails returned undeliverable as a soft bounce were resent by JND no less than three times. Soft bounces typically occur when there are

temporary issues with an email recipient such as a full email box or unavailable email server. At the conclusion of this email campaign, 92.09% of the Initial Email Notices were deemed delivered and only 7.91% were deemed undeliverable. In my experience, this is a very high deliverability rate for an email program.

55. Thereafter, in accordance with the Notice Plan, on September 24, 2019, JND began disseminating, via email, the second Court-approved version of the Notice to Settlement Class Members who had not yet opted out, filed a claim or unsubscribed from the Initial Email Notice (“First Supplemental Email Notice”). JND completed the First Supplemental Email Notice campaign on October 16, 2019. A representative copy of the First Supplemental Email Notice is attached hereto as Exhibit B.

56. In total, JND sent First Supplemental Email Notices to 91,167,239 Settlement Class Members. Emails returned undeliverable as a soft bounce were resent no less than three times. At the conclusion of the campaign, 99.26% of the First Supplemental Email Notices were deemed delivered and 0.74% were deemed undeliverable. This is an extraordinarily high deliverability rate.

57. JND will, in accordance with the Notice Plan, perform the two remaining supplemental email notice campaigns, the specific timing of which will be determined in consultation with the Notice Provider and Counsel, to avoid logistical difficulties and to ensure proper deliverability and effectiveness.

VI. AMEND OR VALIDATE MY CLAIM

58. On or about August 1, 2019, after the Settlement received preliminary approval but before commencement of delivery of the Settlement Notice and implementation of the Notice Plan, Counsel provided JND with an updated Claim Form, which conformed to the Settlement Agreement, requiring Settlement Class Members to include the name of their credit monitoring service when submitting a claim for Alternative Reimbursement Compensation. On August 2, 2019, before the Court-approved Notice Plan was commenced, JND updated the Settlement Website by loading the revised documentation and adjusting the on-line claim form.

59. On September 5, 2019, at Counsel's request, JND updated the Settlement Website to include an option for Settlement Class Members who electronically filed a claim for Alternative Reimbursement Compensation prior to August 2, 2019 to "amend or validate" their claims. Settlement Class Members could "amend" their claims by changing their benefit election from Alternative Reimbursement Compensation to Credit Monitoring or "validate" their claims for Alternative Reimbursement Compensation by providing the name of their credit monitoring service in accordance with the terms of the Settlement Agreement. Additionally, Settlement Class Members were provided the option to withdraw their claims for Alternative Reimbursement Compensation and receive neither this benefit nor the Credit Monitoring benefit.

60. At Counsel's direction, JND began disseminating, via email, a notice to those Settlement Class Members who electronically filed claims for Alternative Reimbursement Compensation prior to August 2, 2019 ("Amend/Validate Email Notification") advising them of their options. The Amend/Validate Email Notification was sent to the email addresses submitted by Settlement Class Members on their electronically-filed claims using industry-accepted best practices for the dissemination of email.

61. Additionally, JND created a link on the Settlement Website for Settlement Class Members to validate their claims directly from the front page of the Settlement Website, itself, without the need to access email.

62. These Settlement Class Members were required to either amend or validate their claim via the Settlement Website, or by mail, no later than October 15, 2019. JND began sending the Amend/Validate Notification on September 5, 2019 and completed sending the Amend/Validate Notification on September 16, 2019. A representative copy of the Amend/Validate Email Notification is attached hereto as Exhibit C. At the conclusion of the campaign, JND determined that 99.7% Amend/Validate Email Notification emails were deemed delivered. For those Settlement Class Members who did not amend or validate their claim by October 15, 2019, JND flagged their claims for follow-up as part of the routine deficiency process outlined in the Settlement Agreement.

VII. CLAIMS FILING

63. The Notice informed Settlement Class Members that they were permitted to submit Claim Forms either electronically through the Settlement Website or physically via the United States Postal Service (“USPS”) to JND. Claims for Out-of-Pocket Losses, Alternative Reimbursement Compensation, Time Spent, and Credit Monitoring Services are required to be submitted electronically to JND on or before January 22, 2020, or postmarked by January 22, 2020, and delivered to JND via the United States Postal Service.

64. JND is currently reviewing and processing the remaining Claim Forms consistent with the Settlement Agreement and the Claims Administration Protocol.

65. As of December 1, 2019, JND has received 281,746 claims for Out-of-Pocket Losses from Settlement Class Members. Of these, 80,892 were submitted with some form of documentation. Assuming all claims for Out-of-Pocket Losses with supporting documentation are valid and submitted in accordance with the Settlement Agreement and Claims Administration Protocol, the Settlement Class Members who submitted these claims will receive the full amount of their claimed Out-of-Pocket Losses.

66. As of December 1, 2019, JND has received 4,509,727 claims for Alternative Reimbursement Compensation from Settlement Class Members who provided a response regarding a claimed credit monitoring service.

67. As of December 1, 2019, JND has received 3,316,414 claims for three-bureau credit monitoring services for four years from Settlement Class Members.

68. As of December 1, 2019, JND has received 2,306,526 claims for single-bureau credit monitoring services for an additional four years from Settlement Class Members.

69. As of December 1, 2019, JND has received a total of 1,845,603 claims for Time Spent from Settlement Class Members. Of the claims received, 1,528,212 do not require documentation and 317,391 do require documentation. Of the 317,391 that require documentation, 48,702 Settlement Class Members have satisfied that requirement of the Settlement Agreement to date.

70. The deadline for Settlement Class Members to submit Claim Forms during the Initial Claims Period is January 22, 2020.

71. As discussed above, JND has developed Settlement specific procedures and protocols for claims processing and supporting documentation review in this Action. All claims processors working on the Settlement have received and will continue to receive training to ensure they understand the procedures and protocols applicable to the Settlement, and to assist with processing claims properly and accurately in accordance with the Claims Administration Protocol.

72. As part of the claims process, JND is conducting a deficiency review to determine if claims submitted by Settlement Class Members are deficient, in whole

or in part, based on the parameters set forth in the Claims Administration Protocol and the Settlement Agreement. Within fourteen (14) days of making such a determination, JND will notify the Settlement Class Member, using the Settlement Class Members' preferred method of communication, of the deficiency via a deficiency notice. Per the Settlement Agreement, the deficiency notice will outline the deficiency associated with each Settlement Class Member's claim and provide the Settlement Class Member with thirty (30) days to cure the deficiency or dispute the deficiency determination in writing and request an appeal.

73. When a Settlement Class Member attempts to cure a deficiency and fails to do so, JND will notify the Settlement Class Member, in writing, within fourteen (14) days of making its determination. The notice will inform the Settlement Class Member of his/her right to dispute the determination in writing and request an appeal within thirty (30) days. If a Settlement Class Member disputes a determination in writing and requests an appeal, JND will provide Counsel with a copy of the written dispute and claim form, as well as any supporting documentation associated with the Class Members claim. Counsel for the Parties will then confer regarding the claim submission and determine whether or not to accept the Settlement Class Member's claim. If Counsel cannot agree on approval of a Settlement Class Member's claim, in whole or in part, the dispute shall be submitted to a mutually-agreeable neutral third party who will serve as a claims referee. If no

agreement is reached on the selection of a claims referee, Counsel for the Parties will submit proposals to the Court, who will have final, non-appealable decision-making authority over designating the claims referee. The claims referee's decision will be final and not subject to appeal or further review.

VIII. REQUESTS FOR EXCLUSIONS

74. The Notice informed Settlement Class Members that anyone who wanted to be excluded from the Settlement could do so by submitting a written request for exclusion (“opt-out”) to JND, postmarked by November 19, 2019. To be valid, exclusion requests must have been timely submitted and contain the following information:

- The name of the Action or similar identifying words such as Equifax Data Breach Lawsuit;
- Full name and address;
- The words “Request for Exclusion” at the top of the document or a statement that Settlement Class Members do not wish to participate in the Settlement; and
- Signature.

75. The Notice further informed Settlement Class Members that if they did not comply with the opt-out procedures and the November 19, 2019 deadline, they would lose the opportunity to exclude themselves from the Settlement Class and their rights would be determined in the Action by the Settlement Agreement if it is approved by the Court.

76. As of December 1, 2019, JND has received 2,770 timely and valid exclusion requests from Settlement Class Members. Attached hereto as Exhibit D is a list identifying Settlement Class Members who submitted timely and valid exclusion requests to JND. In accordance with the Settlement Agreement, on November 26, 2019, JND provided a final written report to Counsel summarizing the number of requests for exclusions.

IX. OBJECTIONS TO THE SETTLEMENT

77. The Notice informed Settlement Class Members that anyone who wanted to object to the approval of the Settlement could do so by submitting an objection letter electronically to the Court on or before November 19, 2019, or by mailing an objection letter to JND, postmarked by November 19, 2019. To be valid, the objection letter must have been timely submitted and contain the following information:

- The name of the Action or similar identifying words such as Equifax Data Breach Lawsuit;
- Full name and current address;
- Personal signature (an attorney's signature is not enough);
- A statement indicating why the Settlement Class Member believes he/she is a member of the Settlement Class;
- A statement with the reasons why the Settlement Class Member is objecting, accompanied by any legal support for such objection; A statement identifying all class action settlements to which the Settlement Class Member has objected in the previous five years; and

A statement as to whether the Settlement Class Member intends to appear at the Fairness Hearing, either in person or through a lawyer, and if through a lawyer, the identification of the lawyer by name, address, and telephone number, and four dates between 11/19/2019 and 12/5/2019 during which the Settlement Class Member is available to be deposed by Counsel.

78. Additionally, if a Settlement Class Member is represented by a lawyer and the lawyer intends to speak at the Fairness Hearing, the Settlement Class Member's written objection letter must include:

- A detailed statement of the specific legal and factual basis for each and every objection; and
- A detailed description of any and all evidence Settlement Class Member may offer at the Fairness Hearing, including copies of any and all exhibits that may be introduced at the Fairness Hearing.

79. Further, if the Settlement Class Member is represented by a lawyer, and the lawyer intends to seek compensation for her/his services from anyone other than the Settlement Class Member, the written objection letter must include:

- The identity of all lawyers who represent the Settlement Class Member, including any former or current lawyer who may be entitled to compensation for any reason related to the objection;
- A statement identifying all instances in which the lawyer or the lawyer's law firm have objected to a class action settlement within the preceding five years, giving the case name, case number, and court in which the class action settlement was filed;
- A statement identifying any and all agreements or contracts that relate to the objection or the process of objecting—whether written or oral—between the Settlement Class Member, his/her lawyer, and/or any other person or entity;

- A description of the lawyer's legal background and prior experience in connection with class action litigation; and
- A statement regarding whether the lawyer's compensation will be calculated on the basis of a lodestar, contingency, or other method; an estimate of the amount of fees to be sought; the factual and legal justification for any fees to be sought; the number of hours already spent by the lawyer and an estimate of the hours to be spent in the future; and the lawyer's hourly rate.

80. As of December 1, 2019, JND has received 1,106 timely objections from Settlement Class Members. In accordance with the Settlement Agreement, on November 26, 2019, JND provided a final written report to Counsel summarizing the number of objections.

81. Objections to the Settlement trickled in at a steady pace of less than a handful per day save for two occasions. The first was after the publication of a *New York Times* opinion piece on September 16, 2019. For example, while JND received less than 10 objections per day before the piece was published, the number of objections jumped shortly after the piece was published—to 48 objections on September 20, 2019, and 109 objections on September 23, 2019. A chart detailing when all objections were received appears below. The second occurrence occurred when JND received 916 objections from Class Action Inc. It appears from JND's preliminary analysis that, as of the date of this Declaration, 198 of the Class Action Inc. objections are not Settlement Class Members and 718 are Settlement Class Members. JND is still analyzing this data. It is my understanding that these

objections were created using a chatbot website called www.NoThanksEquifax.com. The website permitted individuals to electronically check boxes indicating whether they considered the Settlement to be unfair, inadequate, unreasonable or unduly burdensome. The website then used the automated responses submitted by the individuals to create one-page objections with what purport to be electronic signatures, which were ultimately mailed to JND by Class Action Inc. JND does not possess information sufficient to determine whether the signatures on the objections are valid. Additionally, JND understands that Class Action Inc. obtained a number of objections that were purportedly unsigned. Those “unsigned” objections were not provided to JND. If the objections submitted by Class Action Inc. are excluded, JND received 388 timely objections from Settlement Class Members.

X. REPORTING

82. JND communicates frequently with the Parties and their Counsel by telephone and email to discuss the status of the administration and jointly consider details related to each phase of the administration of the Settlement. Additionally, we have regularly scheduled calls, at which time we collaboratively discuss and resolve any open items.

83. In addition to our regularly scheduled calls, we are readily available to discuss any matters related to the administration as they arise in the Action. We exchange emails weekly and sometimes daily regarding compliance with the Notice Plan, the claims process or the administrative process, generally. We also contact Counsel as needed to clarify questions or obtain additional information related to the administration of the Settlement.

84. Our required reporting supplements our regular communications with Counsel. Specifically, we circulate daily and weekly reports on number of claims filed based on claim type, settlement website traffic, call center/email volume, potential exclusions, and objections as they are received by JND.

XI. DUE PROCESS

85. The Notice Plan, which was developed by the Notice Provider in consultation with Counsel, as well as state and federal regulators, and approved by the Court in its Order, was designed to reach as many Settlement Class Members as practicable under the circumstances, and included the following six components: (1) initial research and testing; (2) direct email notice to Settlement Class Members whose email addresses were identified through reasonable efforts; (3) digital notice during the Initial Claims Period; (4) paid publication notice through the use of newspaper and radio; (5) additional digital advertising during the Extended Claims Period; and (6) supplemental notice measures if necessary.

86. As discussed in detail above, under the terms of the Settlement Agreement, JND was responsible for the implementation of the direct notice via email component of the Notice Plan. The Notice Provider was responsible for the implementation of the remaining components of the Notice Plan, the specific details of which are discussed in the Declaration of Jim Messina of Signal Interactive Media, Inc. Although JND was not responsible for executing the remaining

components under the Notice Plan, my team and I worked closely with the Notice Provider to ensure that these components were executed in the time and manner as set forth in the Notice Plan.

87. In my professional opinion, the Notice Plan was implemented to achieve the best practicable notice under the circumstances of this Action and satisfied Rule 23 of the Federal Rules of Civil Procedure, as well as all applicable rules governing class actions. Additionally, as discussed below, although not measurable, the extensive media coverage that this Settlement received undoubtedly added to the effectiveness of the Notice Plan.

A. Digital Notice

88. JND has confirmed that the Notice Provider achieved 1.12 billion digital impressions, of which 458 million occurred on Facebook and related platforms, 103 million on Twitter, 566 million on Display and 624,000 paid search impressions. In addition, it is my understanding that the Notice Provider is on target to deliver an additional 332 million impressions during the remainder of Initial Claims Period, including 133 million on Facebook and related platforms, 106 million on Twitter, and 93 million on Display. This brings the total combined impressions to over 1.4 billion, which exceeds the 1.2 billion originally planned in the Notice Plan.

B. Paid Publication

89. JND additionally confirmed that the Notice Provider caused a full-page notice to appear in the September 6, 2019 issue of *USA Today*. In addition, JND verified that from August 19, 2019, through September 8, 2019, the Notice Provider caused radio spots to broadcast delivering a total of 194,797,199 impressions, of which 63,636,800 were targeted to adults 55 years of age or older.

C. Additional Press Coverage

90. JND monitored the press coverage that the Settlement in the Action garnered, including, but not limited to 48 news releases issued by State Attorneys General. The news coverage was extensive in virtually every U.S. market, increasing exposure and reach to Settlement Class Members. From July 22, 2019, through December 1, 2019, there were approximately 29,900 mentions related to the Data Breach or the Settlement in the Action.

XII. CONCLUSION

91. JND has performed its responsibilities as set forth in the Settlement Agreement and the Order and will continue to do so through all phases of the Settlement, as required by the Settlement Agreement, the Order and any future orders of this Court.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed on December 5th, 2019, in Seattle, Washington.

Subject: Equifax Data Breach Settlement - You may be eligible for cash, free credit monitoring, and more

COURT APPROVED LEGAL NOTICE

If Your Personal Information Was Impacted in the 2017 Equifax Data Breach, You May Be Eligible for Benefits from a Class Action Settlement

Un aviso de este acuerdo también está disponible en www.EquifaxBreachSettlement.com/es

In September of 2017, Equifax announced it experienced a data breach, which impacted the personal information of approximately 147 million people. Equifax has reached a proposed settlement to resolve class action lawsuits brought by consumers alleging Equifax failed to adequately protect their personal information. Equifax denies any wrongdoing, and no judgment or finding of wrongdoing has been made.

If your personal information was impacted in the Equifax data breach, you may be eligible for benefits from the settlement after it becomes final. Under the proposed settlement, Equifax will: (1) pay \$380.5 million into a fund to pay benefits to consumers, court-approved fees and costs of class counsel and service awards to the named class representatives, and other expenses; (2) implement and maintain certain data security enhancements; (3) if necessary, pay up to \$125 million more to reimburse consumers for out-of-pocket losses resulting from the data breach; and (4) provide certain other relief.

Are You Eligible: You are a class member and eligible for settlement benefits if you are a U.S. consumer whose personal information was impacted by the Equifax data breach. If you are unsure of whether you are a class member, visit www.EquifaxBreachSettlement.com and click the "Find Out if Your Information Was Impacted" button or call **1-833-759-2982**.

Benefits: If you are a class member, you are eligible for one or more of the following benefits:

1. Free Credit Monitoring or Cash Payment. You can get free credit monitoring services. Or, if you already have credit monitoring services, you can request a cash payment of up to \$125.

- The free credit monitoring includes at least four years of three-bureau credit monitoring, offered through Experian. You can also get up to six more years of free one-bureau credit monitoring through Equifax.
- If you already have credit monitoring services that will continue for at least 6 more months, you may be eligible for a cash payment of up to \$125. **The amount you receive may be substantially less than \$125, depending on the number of claims that are filed.**

2. Other Cash Payments. You may also be eligible for the following cash payments up to \$20,000 for:

- **the time you spent** remedying fraud, identity theft, or other misuse of your personal information caused by the data breach, or purchasing credit monitoring or freezing credit reports, up to 20 total hours at \$25 per hour.
- **out-of-pocket losses** resulting from the data breach.
- **up to 25% of the cost of Equifax credit or identity monitoring** products you paid for in the year before the data breach announcement.

3. Free Identity Restoration Services: You are eligible for at least 7 years of free assisted identity restoration services to help you remedy the effects of identity theft and fraud.

Important Information Regarding the Proportional Reduction of Benefits. If you request or have requested a cash benefit, the amount you receive may be significantly reduced depending on how many valid claims are ultimately submitted by other class members for this relief. Based on the number of potentially-valid claims that have been submitted to date, payments for time spent and alternative compensation of up to \$125 likely will be substantially lowered and will be distributed on a proportional basis if the settlement becomes final. Depending on the number of additional valid claims that are filed, the amount you receive for these benefits may be a small percentage of your initial claim.

How to Get Benefits:

To get free credit monitoring or cash payments, or both, you must submit a claim:

- Online at www.EquifaxBreachSettlement.com, or
- By mail.

You must submit a claim by January 22, 2020. Certain claims may require supporting documents. If you have already filed a claim, there is no need to do so again.

If there is still money in the fund after payment of valid claims submitted during the initial claims period that ends on January 22, 2020, there will be an extended claims period lasting for four years. In the extended claims period, you may make certain claims for out-of-pocket losses incurred in the future, including time and money spent trying to address identity theft or fraud related to the data breach.

You don't need to file a claim to get **free identity restoration services.**

None of these benefits will be distributed or available until the settlement is finally approved by the Court. If you make a claim for cash compensation, the amount of money you receive may be significantly less than the claim you submit depending on the number and amount of claims that are submitted.

Understanding Your Options:

If you want the Court to exclude you from the settlement class, you must write to the Settlement Administrator by November 19, 2019. List the name of this proceeding (*In re: Equifax Inc. Customer Data Security Breach Litigation*, Case No. 1:17-md-2800-TWT), your full name, your current address, and the words "Request for Exclusion" at the top of the document. You must sign this request and mail it to Equifax Data Breach Class Action

Settlement Administrator, Attn: Exclusion, c/o JND Legal Administration, P.O. Box 91318, Seattle, WA 98111.

To object to the settlement, you must file an objection with the Court by November 19, 2019. For detailed instructions about the process of objecting, visit www.EquifaxBreachSettlement.com.

You must file a claim if you want to receive free credit monitoring or cash benefits under this settlement. If you do nothing, you won't receive a cash payment or credit monitoring services, won't be able to sue Equifax for the claims being resolved in the settlement, and will be legally bound by all orders of the Court.

The Court will hold a hearing on December 19, 2019, to consider any objections, and decide whether to approve the settlement, award attorneys' fees and expenses, and grant service awards to the named class representatives. You may enter an appearance through an attorney, but do not have to. The Court has appointed lawyers to represent you and the class, but you can hire another lawyer at your own expense.

This is only a summary of the settlement. For more information, visit www.EquifaxBreachSettlement.com, or call (toll free) 1-833-759-2982.

Exhibit C

From: Equifax Data Breach Settlement Administrator
Sent: [REDACTED]
To: [REDACTED]
Subject: Your Equifax Claim: You Must Act by October 15, 2019 or Your Claim for Alternative Compensation Will Be Denied

Your Claim Number: [REDACTED]

According to our records, you filed a claim for alternative compensation of up to \$125 in connection with the Equifax data breach settlement and certified on the claim form that you had some form of credit monitoring or protection in place and will continue to have the credit monitoring in place for a minimum of six months from the date of your claim filing.

You must either verify or amend your claim by October 15, 2019.

If you do not, your claim for alternative compensation will be denied.

- To **verify** your claim for alternative compensation, you must provide the name of your credit monitoring service that you had in place when you filed your claim.

- OR -

- You can **amend** your claim to request free credit monitoring instead of alternative compensation.

The easiest way to verify or amend your claim is by visiting the official Settlement Website [here](#).

The amount you receive in connection with your alternative compensation claim may be significantly reduced depending on how many valid claims are ultimately submitted by other class members for this relief. Based on the number of potentially valid claims that have been submitted to date, payments of these benefits likely will be substantially lowered and will be distributed on a proportional basis if the settlement becomes final. Depending on the number of valid claims that are filed, the amount you receive for alternative compensation may be a small percentage of your initial claim.

Please note that if you do not take action by October 15, 2019, your claim for alternative compensation will be denied.

You can also verify or amend your claim by sending us a letter stating either the name of the credit monitoring service you had in place when you filed your claim or that you wish to amend your claim to select credit monitoring instead. Please include your full name, claim number from the top of this email, and zip code to the address below:

In re Equifax Data Breach Settlement
c/o JND Legal Administration
PO Box 91318
Seattle, WA 98111-9418

Further information about your rights and options, including the right to exclude yourself from the settlement, is available at www.EquifaxBreachSettlement.com.

This email is from the Court-appointed settlement administrator, not Equifax. Please do not contact Equifax with questions. To contact the settlement administrator, click [here](#).

Email Disclaimer

The Equifax Data Breach Settlement Administrator will never ask you to provide sensitive information, such as, your Social Security Number or Tax ID, Bank Account Number, Credit Card Number, Driver's License or Passport Number, or Password, etc. via email. All email communications sent by the Equifax Data Breach Settlement Administrator OR on behalf of the settlement administrator will originate from info@equifaxbreachsettlement.com, the official email address of the settlement. If you receive an email which you suspect to be fraudulent, do not reply or do anything it instructs you to do, but immediately forward it to abuse@equifaxbreachsettlement.com.
